

### **BUILDING PRODUCT DECLARATION BPD 3**

in compliance with the guidelines of the Ecocycle Council, June 2007

1	Ba	cic	da	140
	Da	SIC	uc	ILa

Product identification			Document ID 14.5		
Product name	Product no/ID designation	l	Product group		
Actuator ALF	2220XXX		2220		
New declaration     ■	In the case of a revised declaration				
Revised declaration	Has the product been changed?		inge relates to		
	□ No □ Yes	Changed product can be identified by			
Drawn up/revised on (date) 2015	5-10-14	Inspected v	vithout revision on (date)		
Other information:					
2 Supplier informatio	n				

Company name ESBE AB				Company reg. no/DUNS no		
Address	Address Bruksgatan 22			Contact person		
	SE-333 75 REFTELE			Telephone +46 371 570 100		
Website: www.esbe.eu				E-mail order@esbe.eu		
Does the comp	oany have an enviro	nmental manage	ment system?	⊠ Yes	□No	
The company possesses			Other	If "other", please specify:		
Other information	tion:					

#### 3 Product information

Country of final manufacture Italy If country cannot be stated, please state									
Area of use									
Is there a Safety Data Sh	eet for this product?			Not relevant     ■	Yes	□No			
In accordance with the re	egulations of the Swedish	Classificati	ion	Not relevant     ■					
Chemicals Agency, pleas	Labelling								
Is the product registered	in BASTA?				Yes	⊠ No			
Has the product been eco-labelled?	Criteria not found	Yes	⊠ No	If "yes", please spe	ecify:				
Is there a Type III environmental declaration for the product?						⊠ No			
Other information: See	product data sheet at ES	BEs home	page.						

#### **4 Contents** (To add a new green row, select and copy an entire empty row and paste it in)

At the time of delivery, the product comprises the following parts/components, with the chemical composition stated:									
Constituent materials/ components	Constituent substances	Weight % or g	EG no/ CAS no (or alloy)	Classifi- cation	Comments				
Steel		36%	68467-81-2						
Aluminium		43%	7429-90-5						
Plastic		16%	9003-56-9						
Electric components		3%							
Copper		2%	7440-50-8						

Other information:								
If the chemical composition of the product after it is built in differs from that at the time of delivery, the content of the <b>finished built in product</b> should be given here. If the content is unchanged, no data need be given in the following table.								
Constituent materials/ components	Constituent substances	Weight % or g	EG no/ CAS no (or alloy)	Classifi- cation	Comments			
Other information:								
Other information:								

## 5 Production phase

o i roddotion phast							
Resource utilisation and env	ironmental im	pact during pr	oduction o	f the i	tem is repo	rted i	n one of the following
1) Inflows (goods, intermoutflows (emissions and	ediate goods, er d residual produ	nergy etc) for the	ne registered e. from "gate	l prode-to-ga	uct into the rate".	nanu	facturing unit, and the
☐ 2) All inflows and outflow	ws from the extr	action of raw n	naterials to f	finishe	ed products i	.e. "c	radle-to-gate".
3) Other limitation. State	what:						
The report relates to unit of pr	oduct	Reported	product		he product's uct group	}	The product's production unit
Indicate raw materials and in	ntermediate go	ods used in the	manufactur	e of the	ne product	<u> </u>	Not relevant
Raw material/intermediate goo	ods	Quantity and	unit			Con	nments
Indicate recycled materials u	sed in the manu	facture of the p	roduct			<u> </u>	Not relevant
Type of material		Quantity and	unit			Con	nments
Enter the <b>energy</b> used in the n	nanufacture of t	he product or it	s componer	ıt part	S	<u> </u>	Not relevant
Type of energy		Quantity and unit			Comments		
Enter the <b>transportation</b> used	l in the manufac	ture of the prod	duct or its co	ompoi	nent parts		Not relevant
Type of transportation		Proportion %			Comments		
Enter the emissions to air, was component parts	<b>ater or soil</b> fron	n the manufactu	ire of the pr	oduct	or its		Not relevant
Type of emission		Quantity and unit			Comments		
Enter the <b>residual products</b> f	rom the manufa	cture of the pro	duct or its o	compo	nent parts		☐ Not relevant
	Proportion recycled						
			Material		Energy		
Residual product	Waste code	Quantity	recycled	. %0	recycled %	- 1	Comments
Is there a description of the data accuracy for the manufacturing data?	Yes	☐ No	If "yes",	pleas	e specify:		

6 Distribution of finished product  Does the supplier put into practice a system for returning load carriers for the product?  Does the supplier put into practice any systems involving multi-use packaging of the product?  Does the supplier take back packaging for the product?  Does the supplier take back packaging for the product?  Is the supplier affiliated to REPA?  Other information:  7 Construction phase		
Does the supplier put into practice a system for returning load carriers for the product?  Does the supplier put into practice any systems involving multi-use packaging or the product?  Does the supplier take back packaging for the product?  Does the supplier affiliated to REPA?  Other information:  Not relevant Yes  Yes  Other information:		
product?  Does the supplier put into practice any systems involving multi-use packaging for the product?  Does the supplier take back packaging for the product?  Is the supplier affiliated to REPA?  Other information:  7 Construction phase		
for the product?  Does the supplier take back packaging for the product?  Is the supplier affiliated to REPA?  Other information:  7 Construction phase	⊠ No	
Is the supplier affiliated to REPA? Not relevant Yes Other information:  7 Construction phase	⊠ No	
Other information: 7 Construction phase	⊠ No	
7 Construction phase	☐ No	
Are there any special requirements for the		
Are there any special requirements for the product during storage?	y:	
Are there any special requirements for adjacent building products because of this product?	y:	
Other information:		
8 Usage phase		
Does the product involve any special requirements for intermediate goods regarding operation and maintenance?	please specify:	
Does the product have any special energy supply requirements for operation?	·:	
Estimated technical service life for the product is to be entered according to one of the following options, a) of		
a) Reference service life estimated as being approx. $\Box$ 5 years $\Box$ 10 years $\Box$ 25 years $\Box$ >50 Comments	1	
b) Reference service life estimated to be in the interval of 10-30 years		
Other information:		
9 Demolition		
Is the product ready for disassembly (taking apart)?	ise specify:	
Does the product require any special measures to protect health and environment during		
demolition/disassembly?		
Other information:		
10 Waste management		
Is it possible to re-use all or parts of the product?  Not relevant Yes No If "yes", please of the product?	ase specify:	
Is it possible to recycle materials for all or Not relevant Yes No If "yes", plea		
Is it possible to recycle energy for all or parts Not relevant Yes No If "yes", plea	ase specify:	
Does the supplier have any restrictions and recommendations for re-use, materials or energy recycling or waste disposal?	•	
Enter the waste code for the <b>supplied</b> product Metal: EWC 170405; EWC 170402; EWC 170401; Platics: EWC 170203,		
Is the <b>supplied</b> product classed as hazardous waste?	⊠ No	
If the chemical composition of the product differs after having been built in from that which it had at the time delivery, meaning that another waste code is given to the finished <b>built in</b> product, then this should be entered		

Enter the waste code for the built in product  Is the built in product classed as hazardous waste?  Other information:  11 Indoor environment (To add a new green row, select and copy an entire empty row and paste it in)  When used as intended, the product gives off the following emissions:  Type of emission  Quantity [µg/m²h] or [mg/m³h]	If it is unchanged, the fol	llowing details can be o	mitted.					
Other information:  11 Indoor environment (To add a new green row, select and copy an entire empty row and paste it in)  When used as intended, the product gives off the following emissions:  Type of emission  Quantity [µg/m²h] or [mg/m³h]  4 weeks  Can the product itself give rise to any noise?  Value  Unit  Method of measurement  Not relevant  Yes  No  Value  Unit  Method of measurement  Can the product give rise to electrical fields?
